

Draft Woods Resort Firewise Website

Sample Webpages: GIS 4 Schools is assisting EPCF and the West Virginia Division of Forestry Firewise West Virginia Program, develop The Woods Resort Firewise Website. The purpose of the site is to provide resources to help home owners make their homes Firewise. Students at the Hedgesville H.S. web design class will design and publish the final version. In the interim, GIS 4 Schools has provided Firewise resources on CD so homeowners in The Woods Resort in West Virginia can learn how they can make their homes Firewise.

GIS 4 Schools provides technical support to the West Virginia Firewise in the Classroom Project. Working cooperatively with the Eagle Promise Charitable Fund (EPCF) and the West Virginia Division of Forestry (WVDOF), GIS4Schools developed an interactive GIS application that allows students at any school in West Virginia conduct a Geographic analysis of the risk of wildfire in their community. The West Virginia Firewise in the Classroom Project is currently being carried out at Hedgesville High School. More information about the Project at HHS: [WV Firewise Classroom Project](#)

West Virginia Firewise Curriculum:

GIS 4 Schools adapted the Minnesota Firewise curriculum to match West Virginia project 21st Century Initiative. Samples of Firewise Projects using the curriculum are listed below:
